PRICE TWO CENTS

VERY LITTLE FIGHTING ON WEST FRONT

Germans Evidently Preparing For Another Drive--French Take Prisoners and Guns

BRITISH BRING DOWN MANY PLANES

London, April 4.—British aviators were very active Monday on the battlefronts in France, dropping 17 tons of bombs and bringing down 17 German airplanes and two balloons. The official statement on aviation issued tonight says:

"There was good visibility Monday and our low flying airplanes again were active. More than seventeen thousand tons of bombs were dropped and thousands of rounds were fired at the enemy infantry and other targets. Hostile aircraft also were active on the southern portion of our front, some of their two-seater machines firing at our troops with machine guns from low heights.

"Ten hostile airplanes were destroyed and six others driven down out of control. Another airplane was dropped within our lines by infantry. Two hostile balloons were destroyed by our airplanes. Eleven of our machines are missing.

"After dark our night flying machines bombed enemy railway stations, billets, troops and transports, dropping many bombs on the Cambrai railway station, on the station southeast of Duil, on the railway line south of that town, as well as other targets. All of our machines returned.

WILL GENTEEL and patriotic home willing to open room for rental please correspond promptly with young Y. M. C. A. secretary and wife? E. J. H. Y. M. C. A., Franklin Block, Portsmouth, N. H.

GOVERNMENT WATCHMAN MURDERED

Found Dead With Bullet Wound in Head--May Have Been Killed By Persons in Search of Valuable War Papers in Office of Committee on Public Information

LIBERTY LOAN DRIVE WILL LAST MONTH

Washington, April 4.—The third Liberty Loan campaign will last for four weeks beginning Saturday and ending May 4th, the treasury department announced today. Banks will be given five days after the campaign closes to tabulate and report subscriptions.

ACCEPTS POSITION IN WASHINGTON

Judge H. K. Torrey who has been in the Bureau of Supplies at the navy yard has accepted a position in the Internal Revenue Department at Washington. He leaves on Saturday to take up his new duties.

Put out a bright new flag on Saturday. Prepare to buy a Liberty bond early day.

(By Associated Press)
Washington, April 4.—James King, a night watchman at the offices of the committee on public information, was found dead early today with a bullet hole through his head.

Officials on the committee thought that he had been murdered. Examination of King's pistol indicated that he had tried to fire it, but that the cartridges had failed to explode.

Officials said that no valuable papers were kept at the committee's offices, and that the place had been ransacked.

The police later arrested a negro employee of the committee's offices. They say that King and the negro had quarreled. A suggestion that King was killed during a search for papers containing war secrets was mentioned, but the police after examination of the place said that they didn't believe this to be the case.

THIRTY YEARS PENALTY FOR DISLOYALTY

(By Associated Press)
Washington, April 4.—Conferees of the Senate and House today agreed on a bill providing severe penalty for destruction of war materials and sabotage. Penalties of thirty years imprisonment and a ten thousand dollar fine are provided in the bill for acts which actually are intended or which "there is reason to believe" there is intention of destruction.

The legislation also penalizes willful manufacture of defective war materials including their ingredients. The bill was passed by the Senate a year ago in restricted form and recently was broadened and passed by the House at the request of the Department of Justice.

REVOLUTION AGAIN IN COSTA RICA

(By Associated Press)
Managua, Nicaragua, Wednesday.—A revolution has broken out in Costa Rica. Jorge Volio has invaded Costa Rican territory from Panama and a force under him is attacking a town on the frontier. The Costa Rican government believes that many of the invaders are natives of Panama.

COMMISSION WILL APPOINT MORE POLICE

Board Realizes the Necessity of an Increase of Patrolmen.

Realizing the conditions of the city and the need of more police, the commissioners are said to be ready to appoint more men as patrolmen providing the right kind of men can be obtained. The additional appointments are badly needed owing to illness of regular men and the good of the city and the department. Only men of the right age and fitted for such duty, it is said, will be considered.

DURHAM COLLEGE GIRLS COMING

Mr. Hebbard, of the War Camp Community service, is making arrangements for the Girls' Glee Club of New Hampshire College, Durham, to give a concert for the enlisted men next Thursday evening. The Glee Club comprises 25 members and a fine musical treat is in store for the sailor and soldier lads.

RUSSIAN STEAMSHIPS REQUISITIONED

U. S. Government Takes Over Several Vessels in American Ports--Will Increase Our Tonnage Materially

(By Associated Press)
New York, April 4.—The United States government has requisitioned a number of Russian steamships formerly engaged in transporting supplies between America and Russia, according to authoritative information received in shipping circles here today. The taking over of these ships increasing as it does our tonnage greatly will mean more vessels for the transportation of American troops now training in this country, to France, and also release more ships for the carrying of coastwise cargoes.

We entered war just one year ago Saturday, April 6. What have you done?

Have you a war savings stamp?

ANTI-JEWISH RIOTS IN TURKISHSTAN

(By Associated Press)
Moscow, Tuesday.—Anti-Jewish riots have occurred in Turkishstan. In Kokand 300 persons were killed and much property was destroyed, according to a local newspaper. Anti-Semitic agitation in Kiez, it adds, is assuming acute form. When that city was captured by the Ukrainians, most of the inhabitants shot were Jews.

Things are under way for the early opening of the Sunset League.

Royal Easy Chairs

Perfect Fitting Underwear

is essential to both health and comfort and gives the best in service as well. Our spring lines and weights are now ready for ladies, children and men, and include all sizes and styles—vests, pants, union suits and bloomers of silk lisle and silk. Although prices are slightly higher than a year ago, quality has been maintained in every line. Prices range 25c to \$2.98.

New student or professional bags, \$1.75 to \$6.50.

Large black satteen bungalow aprons, \$1.25 each.

New voiles and summer suitings, spring suits, coats, skirts and dresses.

One-half price sale of wall paper, pictures still continues.

Geo. B. French Co.

SATURDAY'S FLAG RAISINGS

Governor Keyes—Coming
Other Distinguished Guests.

Programs at Newington, Freeman's Point and the Navy Yard.

The army, navy, and shipping board have ordered patriotic exercises at all ship plants and naval stations where ships are being built. A message will be read to the men at Newington and at the Atlantic Corporation, from Chairman Hurley of the Shipping board. The workmen will march to the flag staff where music will be furnished. Governor Henry W. Keyes will address the men. The program will be carried out as laid down by the officials at Washington. Flags 12x20 with a flag of the U. S. Shipping Board will be flown from the steel flag staffs. The program calls for singing of the national hymn and other patriotic music.

GEN. PERSHING GETS BELGIAN DECORATION

(By Associated Press)
Washington April 4.—General Pershing has been awarded the grand cross of the Order of Leopold, according to a dispatch to the Belgian legation here today from Havre.

PORTSMOUTH MUST RAISE \$393,000

The quota for Portsmouth in the Liberty Loan drive is \$393,000 and our citizens should make short work of this. The figures were given out today by Chairman Tobey.

PORTSMOUTH MAN AMONG CREDITORS

Joseph A. Briley of York with debts listed at \$1,370.86 has filed a petition as a voluntary bankrupt in the U. S. district court. The principal creditors listed are York County National bank, J. B. Paul of York Beach and S. A. Schurman of Portsmouth. His assets are valued at \$834, of which \$330 is claimed exempted.

Governor Henry W. Keyes is making a thorough investigation of several important war matters.

SUDDEN DROP IN SHIPPING LOSSES

Only Six Big Merchantmen Sunk During Past Week by Submarines

(By Associated Press)
London, April 3.—There was a sudden and marked drop in the British shipping losses from submarines and mines for the past week as announced by the Admiralty today. Only 6 British

merchantmen of over 1500 tons and 7 under were sunk during the week ending March 30. This is about half of the previous week when 23 ships were sunk including 16 over 1500 tons.

DENIES MOTION IN CASE OF CARPENTER

Concord, April 4.—Judge Oliver W. Branch of Manchester at the session of Merrimack county superior court Wednesday denied the motion of Gen. Frank S. Streeter, counsel for Mrs. Margaret Paul Carpenter for a continuance of the conspiracy and alienation cases against Ralph G. Carpenter and George A. Carpenter. He gave counsel for the defendants until April 29 to file answer to the amendment to the suits offered yesterday by Mrs. Carpenter. Counsel for the defendants who appeared at the hearings yesterday are Senator Nathaniel F. Martin and De Witt C. Howe of Concord and Michael J. Sughrue of Boston.

DOVER

KITTERY POINT

Kittery Point, April 4.—Walter Ames first keeper at Whalesback Lighthouse, is quite ill at his home with bronchitis.

Miss Louise Bowden has taken employment at the navy yard.

The Ladies Aid of the Baptist church was pleasantly entertained by Mrs. Cella Dorr on Wednesday afternoon.

Mr. and Mrs. Robert Billings are spending a week with their son Jesse Billings and Mrs. Billings of North Hampton.

Mr. Albert Perry of Medford, Mass., was the guest of Mrs. Thurston Patch on Wednesday.

Mrs. Charles E. Phillips visited friends in Kittery on Wednesday.

Mrs. George Gurnison and Mrs. Oscar Clark attended a committee of the Red Cross at Kittery on Tuesday evening.

The Congregational church held a business meeting at the Community house Wednesday evening.

Mrs. Charles Clark attended the funeral of a relative in Portsmouth on Wednesday.

Miss Sarah Malsfield is passing a few days in Boston.

The Girls' Patriotic club will meet on Friday evening with Miss Ida Lewis.

The Women's Home and Foreign Missionary meeting will meet on Friday afternoon with Mrs. W. T. Coffin, Topic, "Japan."

Mrs. A. M. Draper of Andover, N. H., was the recent guest of Mrs. Ches. G. Emery.

The S. V. club will meet on Friday evening with Mrs. Bertha Clarkson of Portsmouth.

GERMAN TROOPS LANDED IN FINLAND

(By Associated Press)
Amsterdam, April 3.—A Berlin official communication today is the authority for the landing of German troops in Finland. The announcement states that part of our forces had reached Finland after a hard trip through the ice and had landed troops at Hangö.

EXETER

Exeter, April 4.—An enthusiastic patriotic meeting was held Wednesday evening in Smith hall under the auspices of the grange, the program including addresses by Rev. M. R. Forshey of Manchester and P. O. Titus of Hollisford. Mr. Forshey spoke on the Liberty loan and Mr. Titus on food production.

At the Exeter Manufacturing company Col. H. W. Anderson succeeds Chester D. Hatch as treasurer, while Mr. Hatch's successor as agent will be Robert Kent.

A dance and farewell party, was given by Mr. and Mrs. John Johnson of Kensington to the members of the Pekawaukeet council, Daughters of Pechawaukeet, at Red Men's hall Wednesday evening. Mr. and Mrs. Johnson are to leave for California.

The Woman's Christian Temperance union held a Willard memorial meeting Wednesday afternoon at the home of Mrs. Bert Dow on Upper Front street.

Among the Chinese of Hongkong, China, there is a floating population of nearly 55,000. These strange people live on waterways in fantastic houseboats, most of which are no larger than an ordinary rowboat. On these little crafts they are born, marry and die, many of them without having lived on shore a single day.

Frank, the little son of Mr. and Mrs. Albert Hiltomski, is ill.

Miss Gertrude Livermore of Elliot is passing a few days with friends in town.

Capt. William Locke is restricted to his home at Locke's Cove by an attack of the grippe.

The Rehoboth degree staff will meet for rehearsal tonight at 7.30 at Wentworth hall.

George Crowell of Philbrick avenue is reported as being very ill.

Mrs. Jacob Hanson and daughter of South Berwick were guests of relatives in town on Tuesday.

Sugene has greatly enlarged his bread and pastry department to accommodate his increasing trade in that line. Here you will find fine bread and also dairy things for the lunch and dinner basket. Everything from clean sanitary bake shops, and made in compliance with the food laws. We invite your inspection.

FOUNDS—Lily home with two red white feet. Owner can have same by applying to W. D. Kendall, Kittery, and paying for this ad.

A meeting will be held in the Government Street Methodist church vestry room at 8 p. m., Friday April 5 to formulate plans for holding a summer Southern day Chautauque. Public spirited men and women of Kittery and surrounding communities are invited to be present. Members of Bir-

N. H. BAKERS ORGANIZE FOR WAR SERVICE

Manchester, April 4.—Nearly 100 New Hampshire bakers gathered at the chambers of the local Board of Commerce at 2.30 o'clock yesterday afternoon and formed a state branch of the National Bakers Service committee, which will have its end in a uniform set of rules to govern the making of wheat substitute bread throughout the state as a means of helping the conservation policy of the government.

The conference of bakers is the outcome of the national meeting at Chicago when the National Bakers Service committee was formed with William M. Campbell of Kansas City, national chairman.

This committee was approved by Food Administrator Herbert S. Hoover. Who sent a statement urging the formation of a similar committee among the bakers of every state to all food administrators.

An association to be known as the New Hampshire Master Bakers was also formed at the meeting with nearly 100 charter members. G. Nardall, the Concord restaurateur and baker was elected president of the recently organized association and other officers were named as follows: Vice president, J. J. Harrington of Littleton; secretary, Onli Cole of Manchester; treasurer, Andrew Weber of Laconia; executive committee, C. H. Cram of Meredith, John Leonard of Manchester and Mr. Bewos of Manchester. This association will be a permanent organization and is open to all bakers of the state.

John W. Tolly, the baking expert of the Ward Baking company of New York gave a short address. He also read a number of tested recipes used successfully by the A.V.C. corporation in making their war breads. A discussion relative to the ingredients of war bread by Mr. Tolly occupied much of the time of the meeting.

George West of the Vermont Baking company, who was an attendant at the national meeting of the bakers at Chicago, also spoke. He outlined a plan as devised by the bakers at Chicago, whereby the members of this state's bakers service committee by co-operating with the state federal food administration, could greatly help in conserving wheat.

The following resolution to co-operate with the New Hampshire food administration was drawn up:

"That the representative bakers of New Hampshire, assembled here this day, at Manchester, in the Board of Commerce rooms, to the number of over 100, do hereby pledge our loyalty and support to Huntley K. Spaulding, food administrator for New Hampshire, and to the organization effected today, which is to be known as the 'Bakers' Service Committee of New Hampshire, and that we will do everything in our power to adhere to the letter and spirit of the regulations promulgated by the baking division of the United States food administration, and to such other rules as may be legally promulgated by the food administration of New Hampshire."

With the American Army in France, April 4.—American troops on a certain sector other than that in the region of Toul have been subjected to an extraordinarily heavy gas attack. (Part of dispatch deleted).

The attack began Tuesday night and continued at intervals until morning. Mixed with the gas projectiles sent over by the Germans were shells of high explosives.

The Germans energetically shelled the American line and batteries northwest of Toul last night and this morning, employing mine workers at some places. In view of the intensity of the bombardment it is surprising what little damage was done.

The visibility being extraordinarily good, American observers saw long lines of German artillery entering the enemy sector far in the rear. German airplanes, which attempted to cross the American lines yesterday, brought a thousand shells bursting around them and retired hastily.

of refugees to the rail heads, and established a temporary kitchen in one town, feeding 250 British soldiers who had not eaten for hours.

The girls established an information bureau at Montclair where refugees and soldiers were given information about trains and routes. They also drove two trucks and two automobiles in removal work and picked up scores of wounded who were unable to make their way to dressing stations. When unable to obtain supplies from bases they purchased them in towns and kept the kitchens and temporary canteens going.

In four different towns the girls managed to keep just one day ahead of the oncoming Germans. At one place they crossed a bridge a few minutes before it was blown up. Previously they had driven across this bridge night and day while it was mined. The military authorities finally had to order them to cross the bridge. The Red Cross girls worked eight days without removing their clothes, sleeping on straw in barns and caves and similar billets.

This committee was approved by Food Administrator Herbert S. Hoover. Who sent a statement urging the formation of a similar committee among the bakers of every state to all food administrators.

IMMIGRATION AT LOW EBB

Washington, April 3.—As the flow of immigrants from Europe has been cut down to comparatively nothing, it has increased at the Canadian, Mexican and Pacific stations. For ten years before the war, the annual influx approximated 1,000,000 a year. From July to December last year the number fell to 80,222, and the decreasing stream of newcomers is being offset to a remarkable degree by the exodus from America of those desiring to return to their native lands. Departures outnumbered the admissions in November and December. Many of those leaving the country since the beginning of the war have been Allied reservists who have gone back to answer the call to the colors.

A great part of the facilities of the immigration stations, especially along the Atlantic coast, have been turned over to other lines of war work. The great receiving depot at Ellis Island is devoting only 25 or 30 per cent of its space to handling immigration, and similar conditions exist at other Atlantic ports.

The service is employed in preventing surreptitious entry into the country of "objectionable" aliens, chiefly Chinese coolies. Although the traffic has been cut down materially by vigilance, the "great Shanghai inducements" offered those who can run the blockade fosters the practice.

The number of stowaways on ships was twice as many in the last half of 1917 as in the preceding twelve months. Ninety-three altogether, having been detected and disbanded. In the number were several German soldiers who deserted, fled to neutral countries, then sought to find a "safe" haven by hiding on American-bound vessels.

The neutrals—Norway, Sweden, Denmark and Holland—are discouraging emigration, recognizing that the loss of even small portions of their populations may prove a material after-war economic loss.

The visibility being extraordinarily good, American observers saw long lines of German artillery entering the enemy sector far in the rear. German airplanes, which attempted to cross the American lines yesterday, brought a thousand shells bursting around them and retired hastily.

NO CHANGE IN BATTLE LINES

Fighting in Picardy Has Turned to Artillery Duel With Infantry Resting

(By Associated Press)

Although the fighting activities along the new Somme battle front continue, there still prevails a feeling that a battle on a large scale may be expected, with the allied troops after the respite of a few days, strong arrayed in battle formation and eager to get into the fray.

From the Somme to the Oise rivers,

along that portion of the line that bulges out at Amiens, Arras, Breteuil and along the railroad which runs north and south through the town the big guns of the opposing sides have opened up in a general and intensive bombardment.

Since the first of the week there has not been any alteration in the lines from Arras to Chantilly, possibly owing to the extremely bad weather that has prevailed.

In the vicinity of Lens there has been especially heavy artillery activity.

The Austro-Hungarian Foreign Minister Count Czernin in an address to the Vienna municipal chambers, said that Austro-Hungary did not intend to beg for peace, but to secure it by moral rights and power of their forces.

AMERICAN TROOPS IN NEW SECTOR

(By Associated Press)

With the American Army in France April 3.—American troops in a certain sector other than that of the Toul, have been subjected to a very heavy gas attack (some of the dispatches reported).

The attack began last night and the enemy hurled a great number of gas shells over the American positions, intermingled with many high explosive shells.

NO COUNTER ATTACK PUZZLES MILITARY EXPERT

(By Associated Press)

Washington, April 3.—With the battle of Picardy brought to a standstill, and in view of the fact that the advance of the Germans has not only been stopped but driven back, military

experts are at loss to understand why a counter attack has not been made. Under all rules of strategy the time for a counter attack is passing if it has not already passed. The idea being to attack before the enemy can get an opportunity to dig themselves in.

It is considered possible however that the plans of Gen. Foch are for a more elaborate offensive, with which this counter attack would have no weight.

TO CHECK GERMAN SHIPPING SCHEME

(By Associated Press)

Washington, April 3.—Vast extension of the Federal power, ship building, shipping rates, dock and terminals, are asked by the Shipping Board. They were shown in bills presented in the Senate today by Senator Fletcher of Florida, who said that Germany was seeking to secure control of some of the ships being built, to share in the profits here and after the war, to have them for her merchant marine. It was to put a stop to any scheming of this kind that the new authority was asked.

LOCAL BOARD READY FOR ANY SIZED DRAFT

(By Associated Press)

The local War Board is ready for the new draft which Washington dispatches state will be made immediately. The fact that it has been decided to rush all of the first draft men to France and England as soon as possible has advanced the new draft call and it is expected that the April quota will be issued in a day or two.

Congress is considering a bill to base the quota on the number of Class A men rather than total classification and this will go into effect before the new draft is made.

The local Board have some 670 in this class and 271 passed as physically fit with sixty per cent of the remainder passed as fit for limited service, but it is not expected that more than seventy-five or a hundred will be called for this city has a good many credits to be taken up on this draft.

The War Board have everything in readiness with even the industrial cards completed for class one and the greater part of class two. It is not figured that Class A will be exhausted in this city for a year or more at least and by that time the new registrants of twenty-one years of age will be in.

WEBSTER'S BIRTHPLACE GIVEN TO N. H.

Concord, April 3.—A deed of Webster's birthplace at Salisbury was delivered very quietly today to Governor Keyes for the state of New Hampshire. This was done through Chief Justice Frank N. Parsons, vice president of the association and Clarence B. Carr, also a vice president, who was by vote of the association authorized to execute the deed. It was received by the governor under the authority given by the New Hampshire general court by act approved March 27, 1917. There was no ceremony.

The sentiment of the donors is: "At any time it would be eminently proper for the state to accept the care and custody of the birthplace of her most distinguished son and America's greatest constructive statesman. It is especially fitting now, since the great world struggle is to determine whether the national spirit of freedom and democracy which Webster did so much to make the fundamental idea of this nation, is to continue or be another temporary dream of the ages."

"Understanding and appreciating, as perhaps no other nation in the world has done, the justice and beneficence of Webster's theory, as the state takes this birthplace, agreeing ever to guard and keep it, so the people of this state should take the great cause of freedom and democracy, which it typifies and resolutely determine ever to guard and keep them."

IN FRANCE FOR LONG CAMPAIGN

New York, April 3.—Under the double caption "The behavior of the Americans in France" and "Conflicts for

five years" the Berlin Tagblatt of February 5, recently received here publishes the following dispatch dated "Gutersloh, February 5":

WIRELESS STATION FOR CHINA

Peking, April 3.—Negotiations for construction of wireless stations at Chefoo, Shanghai and other points in China have been in progress between representatives of a Japanese company and the Minister of the Navy, Admiral Liu Kuan-hung, since last month, according to seemingly reliable information, says the Chinese National News Agency. A loan agreement with a Danish company has been cancelled by the Chinese Government on payment of monetary compensation to the Danish firm.

The Japanese demand for the privilege of building wireless stations in China is said to be based on a claim that wireless is closely connected with the national defence of Japan. It is stated the Japanese propose to lend more money to China for the purpose under conditions similar to those proposed by the Danish firm.

It is said that the Danish firm, in order to prevent the contract going to a British concern is willing to surrender its contract to the Japanese. Protests were made both by Sir John Jordan, the British Ambassador, and by Baron Hayashi, the Japanese Minister, against the consummation of the Danish agreement in December. Admiral Liu is said to favor the Japanese. The wireless stations are required primarily by the Chinese Navy and not at present for commercial purposes, it is announced.

ANOTHER TEUTONIC PEACE FEELER OUT

(By Associated Press)

Washington, April 3.—American officials and members of the Entente Embassy here in the reported speech of Count Czernin another Teutonic attempt to advance peace talk. In his speech he is reported to have declared that Austro-Hungary was on the point of beginning peace negotiations when they were suspended.

The move for peace of which the official thinks that this talk was just the beginning, came after it was seen that the great German offensive in the western front had been a failure. Officials and members of the Entente Embassy were firm in their expression of the opinion that no peace talk would be considered at this time.

GEN. GALLINGER PRAISED BY ALL THE LEADERS

(By Associated Press)

Washington, April 3.—The long public service of Senator Jacob H. Gallinger of New Hampshire, was highly praised here this evening at a dinner given by the leaders of all parties in honor of his 81st birthday. Myron Herrick of Ohio, said that his wonderful mind and brain had been enlisted in the great war and his service just as great as the men in the trenches. Senator Curtis of Kansas City said that Senator Gallinger has got up out of what was thought his death bed to vote for the declaration of war with Germany.

Senator Gallinger's wonderful service in the Senate and his personality was complimentary referred to by all of the speakers.

DR. WATSON DEAD AT CONCORD

(By Associated Press)

Concord, N. H., April 3.—Dr. Irvin Allison Watson, secretary and executive head of the New Hampshire Board of Health since its organization in 1921 died here this evening.

WOODEN SHOES IN GERMANY

Amsterdam, April 3.—The German war economy board estimates the quantity of wood required in 1918 for making wooden shoes for shoes at a million cubic metres. Wooden shoes advertised as "pliable" are also making their appearance in Holland. A pair of them sells at 25 cents.

TO PROTECT MIDDLE WEST SCHOOL CHILDREN

(By Associated Press)

Washington, April 3.—Representatives of about every state including twelve governors, were here today in conference with Secretary Lane of the Interior Department on an Americanization plan. Senator La Follette of Iowa, urged that Federal authority be taken so that the school children could be protected from the German influence. He said that German songs were being sung in schools of the Middle West even today at the close of the school day, and he considered that the expulsion of Senator La Follette would be a greater blow to Germany than the loss of several divisions.

It was brought out that up to within thirty days, there were schools in Nebraska where the national anthem or patriotic airs were unknown and only German songs were sung. That one paper of German origin had since the United States entered the war, distributed souvenir spoons with the pictures of the Kaiser and von Hindenburg.

TO INCREASE SIZE OF ALL MERCHANT SHIPS

(By Associated Press)

Washington, April 3.—A general increase in the size of the merchant ships to be built in the future has been ordered by the Shipping Board. Steel ships will be of 5500 tons and over, wooden ships 5000 tons and over, concrete ships, if the experiment proves successful, 7500 tons. The increase in the size of the ships is not expected to add to the steel plate shortage, as it will be months before these ships will be laid down.

Mr. George J. Baldwin, Chairman of the American International Ship Building company declared to the Senate committee today that Hog Island was short 50,000 tons of steel plates and that all other yards were the same. This shortage was due to the shipping and to the severe winter.

SHIP FREIGHT TO N. E. TO BE KEPT LOW

Washington, April 3.—The Shipping Board gave assurances today that it would not countenance excessive rates on coal shipped to New England by water. The Salem Board of Trade, writing to Senator Lodge, a short time ago said it had been reported that there would be a heavy advance in the rates. The letter was referred to the Shipping Board. E. F. Curry, director of operations for the board, replied that no one on the board has authorized or approved a general advance in rates from Hampton Roads to any New England port.

"Adjustment in rates," said Mr. Curry, "were made last fall and the board will endeavor to keep rates in reason." He said, however, that the demands of New England are so great that the rates must be made sufficient to avoid driving tonnage from that service.

BERTLING INTERNED AS ENEMY ALIEN

Boston, April 3.—Receipt of orders for the internment of Dr. Karl Oscar Bertling as an enemy alien, were received from Washington today. He was sent to this country in August 1914 to lecture on the German side of the war. He will be taken to Georgia tomorrow. On the day of his departure Dr. Bertling was married to Miss Helen Glotz of New York, the ceremony taking place at the home of Rev. Dr. Wilson at Lexington, federal officials accompanying Dr. Bertling. Miss Glotz is 30 years of age and was engaged to Dr. Bertling and came over from New York as soon as she learned of his arrest.

ITALIAN HERO WANTS TO FIGHT FOR U. S.

Boston, April 3.—Bearing a number of wounds received in 22 months of fighting with the Italian army on the Austrian front, John Allotta, 35, of 51 Elizabeth st., New York, is now at the immigration station on Long Wharf, where he is being held while the immigration officials investigate his case to determine his right to land. He was a member of the 25th Italian Infantry, and was one of four survivors of a company of 200 men who fought before Gorizia. The others were all killed. Allotta has recovered from his numerous wounds and he wants to join the United States Army and go to France. "I have fought for Italy and

THAT OLD SAW

about "proof of the pudding" is going to be put to the test. From April 13 to April 20 will be Neponset week. In that time you will have an opportunity to have demonstrated to you the good looks and wearing qualities of Neponset floor covering. There will be in one of our show windows a sample of Neponset which has seen a week's service in front of the ticket booth of the Olympia Theatre. You'll admit that it will get a rugged and severe trial there.

April 17 and 18 we will have an expert here from the factory to demonstrate the many good points about Neponset. If you wish to secure the best floor covering made, at the price, come in and let him show it to you. Come early, because the market is uncertain. Demands on fabrics and labor are so great that further buying is next to impossible.

Neponset is the best, and that alone is good enough. Come in sometime during the week of April 13 and let the material prove that fact. Selling talk will be as needless as a fifth wheel.

now I want to fight for America, my adopted country," said the man. "If I am not wearing the United States uniform very soon I shall cut my throat."

Allotta left New York two and a half years ago and took part in 16 battles. He was wounded several times, mostly by shell fire, and once he was so badly wounded in the hip by a piece of shrapnel that he was taken to the base hospital. Before he had fully recovered he was told that the Austrians were coming and he was obliged to flee for his life. He wandered around for four days, clad only in his underclothes.

Allotta was married about 18 months before he left New York in response to his country's call. His wife, who was 10 cents per day in the Italian army was 10 cents per day, while his wife in New York received 11 cents per day from the Italian Government, although he said that the Government was in arrears in his wife's allotment.

"My home is now in this country," said the man, "and while I am not a United States citizen, I want to fight for Uncle Sam."

He said the Austrians and Germans are just alike. When cornered they throw up their hands and surrender, and then shoot if they get a chance. He said he thought the Italians would have a hard time to hold the Austrians in the next offensive.

Allotta has two brothers who are prisoners of war. He said the prisoners taken by the Austrians are treated badly, and are just starved. The old men are released and sent back.

YOUR KIND OF ASHOE

The new Ralstons are replete with style and goodness. Young men will find the Diplomat, nut brown, lace shoe a most classy shoe—something that is different. The Hague is a conservative low shoe style.

Portsmouth, N. H., Thursday, April 4, 1918.

"American Carelessness."

Since the advent of spring weather there have been many grass and brush fires in various parts of New England, some of which have entailed heavy losses. It is the old story. At a time when grass, leaves and brush are as dry as tinder people wandering in the open forget the necessity of care, and drop matches and stubs of cigars and cigarettes at random and stroll on serenely, allowing the consequences to be what they may. It is a fair sample of what a New York newspaper properly characterizes as "American carelessness." The paper was not speaking of grass and forest fires, but of the destruction of buildings by fire. It referred to the present practice of attributing practically all great fires to German spies, but said that the real cause in most instances is "our old and traditional acquaintance—American carelessness." In substantiation of this view it reminded its readers that the recent big fire in the Erie railroad yards in Jersey City, which was promptly attributed to enemy spies, was caused by a workman who carelessly dropped a cigarette stub into a litter of chlorate of potash; the results following being "in accordance with well known and immutable laws."

This paper has more than once commented upon this country's bad fire record. There are more destructive fires here than in any other country in the world. This is partly due to flimsy building, practically every city and town being cursed with what are commonly and properly known as "firetraps," and added to this menace is the lamentable habit of "American carelessness." The dropping of matches that have not been extinguished and of cigar and cigarette stubs is responsible for the great majority of destructive fires in buildings and in the woods. At the present time there are undoubtedly many men in the country ready to fire establishments making war munitions and equipment whenever the opportunity presents itself, and it is necessary to stand on guard against them. But there is a far greater number of well-meaning citizens who through their careless handling of matches and smoking materials constitute virtually an army of fire fiends. They mean no harm, but they are too heedless and indifferent to observe the rules of common prudence, and property owners and insurance companies have to take the consequences. The country's fire losses in 1917 aggregated \$230,000,000, the worst record of any year in the history of the United States with the exception of 1906, the year of the great earthquake and fire in San Francisco.

The condition is disgraceful; in fact, it is little short of criminal. But where the remedy is to be found is a question. It apparently does not lie in education, for enough has been said and printed to correct the grievous habit if heed were given to sane and sound advice. It is not pleasant to think that such a condition must be permanent, but if it is not to be continuous we must not only stand rigidly on guard against "German spies," but endeavor to curb a practice which if not checked will continue to curse the country long after the war and the spy system are things of the past.

The packers have increased the price of the better cuts of meat 2½ cents a pound, but deny that the suspension of meatless days has anything to do with it. Meanwhile the price of fish in Boston rules high in spite of record-breaking catches. At this rate there will soon have to be another increase in wages, due to the "cost of living."

New Hampshire cities and towns are permitted to choose between going "bone dry" or having liquor agencies to dispense the "stuff" for "medicinal uses." Some are leaning one way and some the other, and withal there are many individuals who are awaiting the first of May with direful forebodings.

It looks now as if there would be no empty houses at the neighboring coast resorts this season. Shipyard and navy yard workmen will stand ready to take all that may be rented, and it would be a patriotic course for the owners to give way to the pressure until this is less than it is at present.

If the production of wheat is to be "stimulated" by further increasing the price why should not the same tactics be applied to all other crops? In the mad whirl of the times consumers should not be entirely overlooked.

It is well that health conditions at the navy yard are being looked after. Proper sanitation means much not only to the great number of men employed there, but to the people of Kittery and Portsmouth.

Daylight saving is already making itself felt in Boston, where a leading lighting company wants higher rates to make up for the loss of business. That would be a nice arrangement, wouldn't it?

EDITORIAL COMMENT

With a Bottle of Adam's Ale
(From the New York Sun)
When prohibition finally enfolds us, how will ships be christened?

Right Head For the League
(From the New York Herald)
Advocates of a league to enforce peace must hail with joy the selection, as the first president of that organization, of General Ferdinand Foch.

Interpretations of Freedom
(From the Syracuse Post-Standard)
The whole of Germany fights for its free future.—William the First.
The whole of Germany fights to make the Kaiser free to do as he likes with the world.

Raising Standard of Kultur
(From the Springfield Union)
It is now reported that Germany is to open her prisons and draft all the criminals for military service. The wonder is that she hasn't done it before, considering the fact that she has been making use of all her lunatics from the beginning of the war.

So Say We All of Us
(From the New York Herald)
From time to time it has been reported that Quebec would be glad to annex itself to the United States. While nobody on this side of the border has taken that talk seriously it is recalled by recent events in that Province. Permit us to say: "No, thank you."

Wages on a Well-Oiled Elevator
(From the New York World)
Ten per cent more added to the pay of employees of the Standard Oil Company of New Jersey virtually doubles their wages within less than three years and puts the increase way ahead of any increase in the cost of living. There are other features of the Rockefeller brotherhood plan of dealing with the wage-earners, but this is quite a evidential as any.

More Borglum Opinion
(From the Buffalo Express)
Opinions of experts on the seventy-mile gun differ. Gutzon Borglum makes the most interesting statement when he says that the invention was hatched about the United States for a year and that it consists of attaching a ten-inch shell to the nose of a sixteen inch gun. He says we can do it as well as the Germans. It might be worth while to pick out a good German mark and try the experiment.

Amusing Teutonic Stupidity
(From the Louisville Courier-Journal)
The German press is contributing some unwilling humor to the grim but true news. "It is self-evident," says the Cologne Volks Zeitung, "that after what is now happening we can no longer conclude a peace on the terms which we were ready to accept a week ago. The enemy must be brought to a submissive spirit and forced to grant everything we need in the future. But that would be utterly impossible. Humanity. No human power could supply you need. For instance, two of your worst needs are a new set of morals and a new outfit of brains."

Bread in Garbage Pails
(From the New York World)
A few hours after Mr. Hoover had asked people in comfortable circumstances to avoid using wheat flour altogether until the new crop comes in, leaving what there is to spare for our soldiers, our allies and the poor, a photograph was taken of a pile of bread in a New York street.

There were 200 pounds of it, in loaves and half-loaves. It was gathered in garbage pails in a single day between Riverside Drive and Central Park, West 72nd and 102nd streets. On a single one of New York's more than 300 square miles, a population in the main English-speaking, intelligent, prosperous and loyal—just the kind of people to whom Mr. Hoover addressed his special appeal—is wasting bread at the rate of 73,000 pounds a year. It is a sin at any time, and now a grievous sin, to throw away this precious food. It may be necessary to make it a punishable crime.

The Coal Prospect
(From the New York Commercial)
West Virginia's coal mines are the natural sources of bituminous coal for the Atlantic seaboard. Hitherto a large part of their output has been sold in the Middle West where there is plenty of coal. The high quality of West Virginia coal makes a market for it in coal-mining towns. To save transportation and get more service out of cars the Fuel Administration and the Director General of Transportation have decided to send this coal to the seaboard and let interior points draw their supplies from mines nearer to them. West Virginia produces some smokeless coal which, though not really smokeless when carelessly fired, can be used to replace anthracite in Eastern cities where the use of smokeless fuel is forbidden. There should be no excuse for a coal famine in the east next winter under these conditions.

Liquor And the Uniform
(From the Philadelphia Public Ledger)
Is any punishment too severe for the saloonkeeper who peddles liquor to enlisted men? America, expectant that every soldier, sailor or marine will do his duty in this unexampled crisis, demands of each man that he shall be fit when the minute strikes. Sailing and

Marching orders come suddenly nowadays. If the foolish, virgins whose lamps were unlit were censurable, what shall be said of the warrior, acclaimed as a hero by a grateful people, who is drunk when there comes to him the summons that should find him clear of head and sure of hand and wind? But the fault travels behind his weakness to the man who tempted him to his downfall. The greater the culprit by far is the dealer who supplies the uniform by the liquor he dispenses. The courts have very leniently dealt with eighteen "bootleggers" who were buying liquor on the sly for enlisted men. It was held that these agents were genial amateurs with a mistaken view of patriotism. A few object lessons in the way of rigorous treatment would go far toward putting an end to the nefarious business that by numbing the mental reaction of our fighters gives comfort to the enemy.

Winter in Japan
(Rev. N. L. Lobdell in the Universalist Leader)

"The coldest winter in fifty years," our Tokyo papers say. Heavy snowstorms have been frequent in the north and west, tying up the railways, threatening some large towns with starvation, and crushing whole villages. Coal (soft) sells at \$22 a ton, and charcoal, the staple fuel in the Japanese home, has also doubled in price. Wood, too, has risen in price, but not quite in proportion to coal and charcoal. The price of rice is the highest we have ever known it, nearly double the ordinary figure. As a result of the severe cold, vegetables have been scarce and correspondingly high. Flour has gone up to the quotations shown in the American papers, due in large part to the manipulations of the speculators. We are wondering where our supply of wheat is to come from this year, as this country produces but little, and the ban on exports from America will cut off one of the principal sources in ordinary years. Perhaps the Manchurian fields will come to our rescue. Imported groceries, especially tinned goods, that we have always depended on, are becoming scarce and have about doubled in price. House rents, too, are gradually rising, and the lot of the middle class man who lives on a salary, as do our pastors and most of our church members, is becoming increasingly hard.

Nostalgia And the Soldier
(From the New Haven Register)
For the first time since the American troops went abroad the casualty list recorded a private in the Army as dying of nostalgia. The entry was brief and headed the department of the list of "Other deaths" it said simply: "Private George Arnett, nostalgia."

Now "nostalgia" is the medical term for "homesickness," a disease recognized by the medical profession as a disease, as more than a state of mind. It has been noticed by military authorities in all campaigns where the men were taken far from home and kept there a considerable time, and has a recognized place in the list of soldiers' ailments.

It is not hard to imagine Private Arnett, a boy alone in a strange land, in a life new to him, unable to speak the language of the country—"homesick"—just as every American soldier boy is at times. But with him, the homesickness resulted fatally. He died here in France, far from his land, and the home for which he longed.

The only cure for homesickness is cheerful letters from those left behind. The only way to help the boy in France stave off the attack of nostalgia is to provide him with cheerful news written regularly, as promised, and written whether he is heard from or not.

The death of Private George Arnett has in it a reminder for everyone. Keep writing the boy at the front.

The Appeal of the Streams
(From the Worcester Telegram)
Vermont has woken up to the music of waterfalls. The conservation commission of that state has had the rivers guessed out by engineers and come to the conclusion that if the power of waters now running to waste were properly utilized the state could live each year with 700,000 tons of coal crossed off the bills. That means \$7,000,000 a year which coal sells at \$10 a ton. Seven million dollars is a lot of money in Vermont, and it is a lot more money when it is sent from Vermont to Pennsylvania to pay for coal. The commission claims 700,000 tons is about half the coal used in Vermont industries, annually. But the commission has not discovered a tenth of the available water power of Vermont. It has measured by the eye, only that which is easily apparent, and not looked up by corporations, for "our own use" some time in the indefinite future. Vermont has enough wild water to drive all the industrial coal and the household coal burning out of the state forever. Every one of its mountains is worth a million dollars for water power service alone, and there are hundreds of mountains, counting some hills which Vermont modestly relegates to the inconsequential. There is still undeveloped power in the Connecticut river alone to provide electricity enough to turn all the industrial wheels of Vermont. One wake up deserves another. Vermont is doing well by leading off for other New England states.

Where Lies the Blame?
(From the Chicago Tribune)
If Americans want to know why they now are being hurt and why they are helplessly facing such danger, let them examine the doctrines which have been opales to the common sense of the nation. Let them examine the policies which have prevailed in gov-

WITH THE FLAG

"THEN CONQUER WE MUST WHEN OUR CAUSE IT IS JUST."

The HERALD cordially invites recipients of mail from soldiers in any and all branches of the service to send the letters to this office for publication. All matter of a personal nature will be eliminated in the publication; also the original letter will be returned to the owner directly after its publication without in any way being marred.

ernment. Let them recall how their public men deluded them. The very men who now say the United States will not need an army in the future sold the United States would not need the one they wish were in action for it. The very men who say there will be no war in the future said this war would not be. The very men who say the United States must not prepare militarily for the future prevented the United States from being prepared for the present.

These men, whose destructive counsels may continue to prevail, were responsible for the condition in which the United States finds itself. They insist that such shall be the condition of the United States whenever and whatever emergency may come to it.

Among these men are numbered the leaders of the American Government. That is our misfortune. With German guns blasting the very foundations of our security, our leaders have the audacity to tell us that the policy which proved so disastrous in the past which is so tragic in the present, will be benevolent and wise in the future.

They have this audacity at the moment when they are apologizing for lack of ability to defend the United States and explaining the reasons for lack of defenses, at the moment when apologies and explanations are as valuable as air.

They have this audacity and they have the stubbornness of opinion to assert that the United States shall not have a protective system. These leaders are responsible for the present defenseless condition of the United States. They are responsible for our feebleness at a moment which demands our might. And they insist that that they were right in bringing this condition into existence. They say that it must continue to be the condition of the United States.

The American people must refuse to accept such doctrines. They must not be deluded by such opinions. They must not commit their future to such doctrinaires and illusionists.

They must ask Congress to turn aside from such leadership and to insist upon being the guardian of the American future. They must ask for the adoption of protective legislation.

Americans are awakening to the seriousness of the national condition. They know that the danger to the Allied lines in France is a danger to the American frontier. They must also awaken to the seriousness of our national delusions.

They know the danger presented by German force. They must know the danger presented by American weakness of policy.

Unless Congress revolts against Administration policies, the country will continue to expose itself. Congress will revolt, we believe, if it feels that an awakened country demands protection. The only rational protection is in universal military training.

Real Statesmanship
(From the Milwaukee Sentinel, Rep.)

A little indignation on the part of the colonel of the generous support Mr. Hughes and Mr. Taft are giving the Administration would be appreciated by a public that fully realizes the value of such moral support if we are to win this war.

PEOPLE'S OPINIONS

Wonderful Clam Digging

I noticed in your paper of Wednesday that a South End man distinguished himself by digging clams near the Westworth House bridge while using snow shoes. I suppose the next thing we will hear about this wonderful man, will be an account of him wading the clam flats in an airplane. He might get a steam shovel down there and make a general clean-up.

ANOTHER SOUTH END CLAM DIGGER.

SOUTH PARISH ALLIANCE

Lieut. Commander Thomas Mott Osborne will speak upon "The Great War and the Prisons" at the April meeting of the South Parish Alliance at the Unitarian chapel on Court street, Friday afternoon, April 6, at 3.30 o'clock. The public is cordially invited.

CONVOY FOR SWISS GRAIN?

Geneva, April 3.—With regard to convoys for American grain ships for Switzerland negotiations with Germany are proceeding. Germany, it is said, is ready to grant convoy only for ships under the Dutch flag, but not under the American flag.

THINGS ALL RIGHT AT HOG ISLAND

Washington, April 4.—Investigation of the general shipping situation virtually was brought to an end Wednesday by the senate commerce committee with the examination of George J. Baldwin, chairman of the board of the International Shipbuilding Corporation, which has a contract to build upward of 200 fabricated steel ships for the government at the much discussed Hog Island, Pa., shipyard.

Mr. Baldwin amplified his oral testimony vigorously answering charges of mismanagement and extravagance at Hog Island, with a written statement, which was made a part of the records and which explained in detail the contract between the American International corporation and the shipping board.

He said the corporation was, in fact, an agent of the board and as such an arm of the government, that it received no compensation for the building of the yard, and that the only money it would receive will be in the commission for constructing the ships.

"It must be understood," said the statement, "that the amount of money that has been paid in wages in its entirety for this transaction up to date is only something in excess of \$7,000,000. All other moneys that have been spent have been paid out for materials and these materials have all been purchased by the shipping board or with its approval."

In his oral testimony, Mr. Baldwin replied to assertions that the corporation will not be able to build the ships in the contract time by saying that the vessels will be delivered on time unless the government fails in its deliveries of the steel. The government is now some 60,000 tons behind in these deliveries, he said, and this statement so impressed the committee that Chairman Fletcher was directed to call on Chairman Hurley of the shipping board and with him to lay the situation before the president.

Discussing the contract for building the yards and ships, Mr. Baldwin said that when the contract was entered into between the board and the International Corporation, it was agreed that the government was to have the services in the enterprise of Stone & Webster, a Boston Engineering firm, and the New York Shipbuilding Corporation, and that to all intents and purposes, the contract was with these three concerns, with the American International Shipbuilding Corporation organized as their agent. The commissions on the ship will be divided between the three principals, the statement said.

"We contend that the scheme in its entirety was the only proper and practical way in which the government could speedily have its ships."

"That the contract in its entirety was not an honest and a reasonable one, not burdensome upon the government."

"That from a commercial standpoint, we would not undertake to perform the services and do the work which we are doing in this matter, for the fee which we are to receive."

"The transaction in question is a simple one between the government on the one part and the agent of the other part, the agent comprising all the various corporations above named, and that there is no interlocking of interests of various corporations mixed up in profiteering at the expense of the government."

"That there has been no delay in the program and that the work has been faithfully, honestly, speedily and efficiently carried out and that the U. S. government will soon have a completed and efficient yard and that it is best organization of men in the world for the quick and effective production of ships in hitherto undreamed of quantity."

"That the agent who was employed to do this work was the most competent and the best equipped organization of any existing in the world."

"That the location of the site was the only one that could have been selected made with the point approval of the agent and the shipping board, that the purchase price paid was paid by the agent and whether high or low the government could not possibly suffer therefrom."

"That no purchases are being made by the agent from any affiliated corporations, so that the charge of profiteering cannot be made in that direction."

"The statement only set forth that the fees paid for the building of the yard was to sub-contractors on what the corporation estimated the work would cost, so that it cannot be said that the sub-contractors are overpaid in a 'huge expenditure of money in carrying out their work.'"

In conclusion Mr. Baldwin contended that "there has been no wrongdoing and that there has been and is nothing to criticize."

In his oral testimony Mr. Baldwin urged that the committee reach a decision concerning its recommendations to the senate as the work at Hog Island necessarily will progress more smoothly when the final outcome of the investigation is made known.

While before the committee Mr. Baldwin furnished a list of 3300 stockholders of the American International Corporation which was requested some weeks ago by Senator Johnson of California.

Iching piles provoke profanity, but profanity won't remove them. Doan's Ointment is recommended for itching, bleeding or protruding piles. 50c at any drug store.

PRI. QUIMBY WRITES FROM "OVER THERE"

The following letter has been received by Mrs. Robert R. Lear from Private Percy Quimby, now with the American Expeditionary forces in France. Young Quimby was employed for a number of years in the grocery store of R. R. Lear:

Somewhere in France, Feb. 25, 1918.

My Dear Mrs. Lear:

Received your most welcome letter and was very glad to hear from you. Am in the very best of health and am having a great time. I also received your Xmas card. We are in the trenches now doing our little bit and believe me the old Yankee boys are going to show these Germans a few things before we get through with them. We often hear a shell coming zip! zip! over our heads and as soon as the boys hear them they dig for their dugouts. We also see air fights occasionally. We are living in a big cave which was once owned by the Germans but when the French made a big drive they captured it and have had it ever since.

I guess it has been a hard winter in the states this year. I hear from my mother and sister often, but letters are always welcome because you know it makes the boys feel happy when they get letters from home. If you will, I would like to have you send me some chocolates and cigarettes.

Give Mr. Lear my best regards and say I would like to see him. I receive letters from Charlie Lear often.

Well, there is not much to write about, so I will close for this time. Hoping this will find you and Mr. Lear in the best of health, I shall remain your friend, PERCY.

Private P. A. Quimby,
D. Company,
101 U. S. Engineers,
A. E. F.

POLICE COURT

Michael Syllinski, as defendant, and Julius Marzo, plaintiff, with a dozen or more witnesses, interpreters and their lawyers took up the forenoon in the municipal court today. Syllinski was charged with larceny of money. He attended a church party at the residence of Julius on McDonough street on Wednesday afternoon where, without money and bootless days were up for joint debate. During arguments by the several orators the liquids were ordered and Michael was selected to rush the duck. A ten dollar bill was placed in his paw to bring back the brew, so Julius claims, and the account did not balance when Michael remitted. Michael claimed that all his transactions in the purchase of the hop flannel were strictly honest, but nevertheless Julius had him plinched.

The court heard the story from both Michael and Julius besides that of the several guests who greeted the occasion and ordered Syllinski turned loose, as the evidence was not enough to hold him.

Edward F. King, a soldier at Fort Constitution, who was arrested on Market square on Wednesday night by Patrolman Gray after causing considerable trouble, was turned over to the officers at the fort today.

PYTHIAN SISTERS MAKE PRESENTATION

A gathering of members of Crystal Temple, Pythian Sisters, was held at the home of Mr. and Mrs. C. Edward Hoyt on Memorial avenue last evening and all present enjoyed the occasion.

The gathering was in honor of Mrs. Ella P. Smith, a past chief of the organization, who is to take up her residence in Washington, D. C., this week. During the evening Mrs. Smith was presented with a handsome leather traveling bag, in which was a leather case of toilet articles, the presentation being made by Mrs. Merle Higgins in behalf of the assembled company. The gift was a complete surprise to the recipient, who, thanked the donors heartily and also expressed appreciation of the friendship which had prompted the festivity.

Musical added to the sociability of the occasion and refreshments were served by the hostess. All later left for their homes, having much enjoyed the evening.

BURNS DEFEATED DRAAK IN HARD MATCH

Loses First Fall on a Toe Hold But Wins Next Two With Hammer Lock.

"Cyclone" Burns made good his title of being the most wonderful wrestler in the work at his weight, by defeating Tom Draak before a great crowd of fans at Freeman's hall on Wednesday evening. Draak with weight and age in his favor for a considerable time looked as though he was going to take Burns measure, and only Burns' wonderful skill saved him several times.

It was one of the best matches of the year, with both men in the peak of condition and working beautifully every minute. Draak appeared to be even in better condition than when here with Mauch and he has not excuse for being beaten by a better man. He is fast, in fact seems to have taken on speed and furthermore does not lack any of the fine points of the game and with possibly the exception of Burns is capable of taking care of any of his weight. He weighed at least ten or fifteen pounds on Burns last evening.

Burns who has been here for a week training with Bill Dryden was in great shape and he was always the jolly wrestler, getting out of difficulties in a remarkable clever manner. Draak played incessantly for arm holds and several times he had Burns in distress but each time he managed to clear himself.

It was a remarkably clean match, none of the rough stuff or getting mad, but nevertheless fast and not over gentle when it came to applying pressure.

Draak got the first fall, getting Burns into a position where he could apply the toe hold he promptly took advantage of it and Burns immediately gave in. Time, 23 minutes, 30 seconds.

The second fall went to Burns after just an hour's wrestling, in which the spectators were treated to about every hold and break in the wrestling game. For the first half hour Burns was on the offensive and he kept Draak hustling, at one time looking good for a fall, but the wonderful strength of the younger man saved him. Burns finally got a hammer lock on Draak's right arm and after standing it for a few seconds he gave in, just as the time keeper announced one hour.

They came back to the mat apparently fresh and on their first fall Burns worked Draak into a hammer lock and he gave in at once, it being the same arm as the second fall. Time 12 seconds.

Dryden announced that the match for the benefit of the Red Cross would be held on Tuesday instead of Monday as through some misunderstanding the hall was let for a dance on that night. He said that Metro would be here and that everything, even the bare expenses, and everybody connected with the show had agreed to give their time, would go to the Red Cross. Bill promptly got busy and sold a good number of tickets among the fans.

Dryden in bringing Metro here has secured one of the best men in the country. He is about Dryden's weight and it should be a royal battle.

hoping of selecting a fast aggregation to represent P. H. S. The first game is scheduled with Amesbury High, to be played in this city April 20.

Tom Draak had to make a long journey to keep his engagement with Cyclone Burns in this city Wednesday evening. He wrestled Tom Morris at Hopewell, Va., Monday evening, winning in straight falls. He left immediately after the match on his long trip to New Hampshire.

Joe Turner, the Washington, D. C. middleweight wrestler wants to meet John Kilonis for the title. It is probable that this pair will meet in Boston in the near future. Turner is a fast wrestler but is neither heavy or rough enough to trim the Manchester Greek.

The U. S. S. Hammett will have a baseball team this summer and candidates were out for practice at the yard Wednesday afternoon.

Ben Reubens, the former amateur middleweight wrestling champion, is now wrestling instructor at the Great Lakes naval station near Chicago. Ben is another of the many grapplers who want a crack at John Kilonis.

The Rockingham A. C., has added another bout to the card for Friday night. The program will open with a four round session between Young Johnson and Young Turner, fast colored boys, to be followed by a six rounder between Young Gaven of Somersworth and Young Cleere of the U. S. S. South Dakota. Cleere is substituting for Johnny Veddo who is unable to appear. This bout will lose nothing by the change as Cleere, one though not as heavy as the Somersworth boy, has lots of speed. The semi-final will bring together Young Kenney of the South Dakota and Young Schaffer of the Leonidas, and these boys will be there with the action. The final between Billy Carney of New Bedford and Young Battling Nelson of New York, looks like the best boxing contest ever arranged for this city. The club has endeavored to get the best men in the game and seems to have succeeded.

Patsy McCarthy, the Irish wrestler, and Peter Goglet the bouncing Frenchman will meet in the preliminary to the Kilonis-Yokel bout at the Grand Opera House, Boston, tonight.

Jack Blair, the Nashua Country club golf professional, will not begin his duties there until May 1, and will continue until that time in the Head Indoor school in Boston.

The schedule of the Nashua, N. H. high school baseball team for 1918 is announced and includes games with Lawrence, Milford, Lowell, Pinkerton, Concord, Mass., and St. Joseph's Manchester.

Jack Curley has been forced to postpone the Stecher-Lewis wrestling match indefinitely due to Stecher's serious illness at his home in Nebraska. The affair was scheduled for Madison Square Garden, April 26.

WITH THE BOXERS

Johnny Kilbane, featherweight champion of the world, who has been acting as boxing instructor at the army camp at Chillicothe, O., recently passed through Chicago on his way home, and announced that he has been made traveling director of army boxing by Dr. Raycroft. He will visit every cantonment in which boxing is being taught. Kilbane recently attended a meeting at Des Moines, Ia., where the boxing instructors met with Dr. Raycroft and outlined plans of instructing the soldiers. He said:

"It was a very interesting meeting. Boxing is greatly encouraged in the army, not only by Dr. Raycroft but by President Wilson himself. Not for the purpose of adding the boxing game or to develop a lot of fighters in the ring, but because of the good it does a soldier. Rules somewhat different from the regular professional rules were drawn up."

Kilbane will try to induce Jess Willard to make the trips with him, for he feels Willard's size, his position, etc., will make a deep impression on the boys and stir them to greater action.

Billy Woods of Manchester is training hard every day for his meeting with Young Bushey and expects to be inside the theory with the youngster who fought Brit for the championship of New England. Woods' manager states that his boy is coming to the front by leaps and bounds and when he trims Young Bushey he will go after Brit and all feathers in New England.

Johnny Dundee and Willie Jackson have not yet settled the question as to who is the better scrapper. This pair of New York lightweights have met three times with honors at even.

Jack Dempsey, the sensational heavyweight, was christened William Harrison Dempsey, but upon taking up boxing professionally, he adopted the name Jack, after the famous Nonpareil.

A comparison of the relative fighting ability of the two Boston favorite middleweights, Tommy Hobson and Joe Egan can be made by the fans when Bryan Dawsey meets Tommy Hobson in Boston April 10. Egan has defeated the Columbus man twice, and should Tommy get the decision over him, he will prove that he is a worthy opponent for Egan.

Most disfiguring skin eruptions, scrofula, pimples, rashes, etc., are due to impure blood. Burdock Blood Bitters as a purifying blood tonic, is well recommended at all stores.

KILONIS WINS FROM PINKY GARDNER

John Kilonis recaptured the mid-dweight wrestling championship at Manchester Wednesday night by hurling Pinky Gardner to the mat with a croch and shoulder hold for the only fall of the match after two hours and twenty-one minutes of the fastest, clearest and most grueling grappling seen in Manchester for many years.

The climax came within nine minutes of the time agreed to end the contest and after both had been in the highest places on numerous occasions, John centered the clever Gardner near the center of the ring and grabbed a croch and shoulder hold. Gardner had broken the identical grip several times before and the fact that Kilonis was forcing his opponent's shoulders to the mat offered no unusual thrills to the fans. The Greek who stood the rugged and grueling half better than his opponent, was on the point of forcing his opponent's shoulders to the mat when Gardner wiggled out of the hold only to have Kilonis follow him up and banging him to the floor three times. Finally he flung him off the mat and forcibly dash him to the canvas, falling on him for the single fall of the contest. Gardner was unconscious for some few seconds and suffered a bad wrench from the toss.

At the outset of the match Gardner far outclassed Kilonis. He kept on top of John at all times and kept the latter so busy defending himself that he had little opportunity to show anything. The visitor was far cleverer than the Greek throughout the entire match, but Kilonis succeeded in wearing him down.

George Tuohy failed to put in an appearance and Charlie Metro, the Claremont wrestler, acted as third man in the ring and did a fine job. Jim Poulis received a short workout in his match with Pat McCarthy of Boston. Jim was far too fast for Pat and dropped him for two consecutive falls in 24 minutes and 40 seconds respectively. The first fall resulted from a body scissors after Jim had commenced to warm up. The second set to had not started before Jim tripped another body scissors and arm hold which resulted in the Hub matman finishing his evening's work.

COLLEGE BASEBALL FOR APRIL

(By Associated Press)
New York, April 4.—Although there are not as many baseball games scheduled for decision by the eastern colleges and universities this season as in normal years, there will be close to three hundred contests during the next three months, weather permitting. About 90 per cent of the institutions which have supported various games in past years will be represented upon the diamond, but the usual lists of twenty to thirty games have been cut. In many cases, to about half this number.

The leading universities of the section will put combinations in the field and in some instances outdoor practice and a few games already have been played. Reports from the various college centers, however, indicate that there is a dearth of the usual large squads of candidates and the play is hardly expected to reach the high standard that has marked this department of intercollegiate sport competition in recent seasons.

In many cases the regular three-game series between old-time rivals have been reduced to two and no provision made for a third contest should the teams break even in the two matches scheduled.

Wednesdays and Saturdays are the favorite days for staging these college games although almost every day of the week, except Sunday, finds a few scheduled. The greatest number of matches are planned for May and very few of the college teams will continue play after the first week of June.

The list of principal contests for the month of April follows:

Wednesday, April 3:

West Point, N. Y.—Lehigh vs Army.

Annapolis—Holy Cross vs Navy.

Thursday, April 4:

Baltimore, Md.—Fordham vs St. Joseph's college.

New York—Holy Cross vs Columbia.

Friday, April 5:

South Orange, N. J.—Seton Hall vs Holy Cross.

Saturday, April 6:

New Brunswick, N. J.—Rutgers vs Virginia.

So. Bethlehem, Pa.—Lehigh vs Catholic University.

Washington, D. C.—Randolph Macon vs Georgetown.

Baltimore, Md.—John Hopkins vs Western Maryland.

Emmitsburg, Md.—St. Mary vs Catholic Indians.

Philadelphia—Penn. vs Swathmore.

Annapolis, Md.—Navy vs Fordham.

West Point, N. Y.—Army vs Boston College.

New Haven—Yale vs Columbia.

New York—Columbia vs Holy Cross.

Hoboken, N. J.—Stevens vs St. John's.

Tuesday, April 9:

Philadelphia—Villanova vs Haver-

ford.

Wednesday, April 10:

So. Bethlehem, Pa.—Sussex vs Lehigh.

Washington, D. C.—St. John's Col.

Annapolis, vs Georgetown.

Medford, Mass.—Tufts vs R. I. State.

Swathmore, Pa.—John Hopkins vs Swathmore.

Washington, D. C.—Gallaudet vs Catholic University.

New York—Columbia vs Fordham.

West Point—Army vs Colgate.

New York—Stevens vs N. Y. University.

Friday, April 12:

Albany, N. Y.—Lafayette vs Cornell.

Saturday, April 13:

Middletown, Conn.—Wesleyan vs Conn. Agricultural College.

New York—New York University vs Rutgers.

Boston—Charlestown Navy Yard vs Tufts.

Annapolis, Md.—Navy vs Penna.

Kingston, R. I.—Rhode Island College vs Newport N. H.

Amherst, Mass.—Holy Cross vs Amherst.

West Point—Lafayette vs Army.

New Haven—Yale vs Holy Cross.

Wednesday, April 11:

New York—Fordham vs Tufts.

West Point, N. Y.—Army vs Swathmore.

Annapolis—Navy vs Maryland State College.

New York—Swathmore vs Columbia.

Friday, April 12:

New Brunswick, N. J.—Wesleyan vs Hamilton College.

New Brunswick, N. J.—Cornell vs Rutgers.

Boston—Brown vs Boston College.

Worcester, Mass.—Holy Cross vs Pa. Springfield, Mass.—Dartmouth vs Springfield College.

Waterville, Me.—Maine vs Colby.

Leviston, Me.—Bowdoin vs Bates.

Saturday, April 20:

Philadelphia—Univ. of Penna vs Lehigh.

Annapolis, Md.—Navy vs Georgetown.

Providence—Brown vs Rhode Island College.

New York—Columbia vs Cornell.

Boston—Newport vs Boston College.

Amherst, Mass.—Rensselaer, P. I. vs Amherst.

New Haven—Yale vs Dartmouth.

Wednesday, April 24:

West Point, N. Y.—Newport N. H. vs Army.

Amherst, Mass.—Bowdoin vs Amherst.

New York—Columbia vs Swathmore University.

Thursday, April 25:

Williamstown, Mass.—Bowdoin vs Williams.

Boston—Colby vs Boston College.

Friday, April 26:

Newport, R. I.—Naval Reserves vs Cornell.

Worcester, Mass.—Bowdoin vs Holy Cross.

Manchester, N. H.—St. Anselm's vs R. I. State.

Saturday, April 27:

Washington, D. C.—Georgetown vs Gallaudet.

Providence, R. I.—Brown vs Trinity.

Tufts Col. Mass.—Tufts vs Springfield.

Annapolis—Navy vs John Hopkins.

Cambridge, Mass.—Harvard vs Princeton.

New Haven, Conn.—Yale vs Cornell.

Worcester, Mass.—Williams vs Holy Cross.

Hanover, N. H.—State vs Dartmouth.

Orono, Me.—Bates vs Maine.

Manchester, N. H.—Bowdoin vs St. Anselm's.

Waterville, Me.—Colby vs Rockland, N. H.

Monday, April 29:

Hanover, N. H.—West Virginia vs Dartmouth.

Tuesday, April 30:

Tufts College, Mass.—Bates vs Tufts.

New York—Cornell vs Columbia.

BOWLING

Win Ten String Match

Badger and Lessor defeated Jordan and Dexter in a ten string match at the Arcade on Wednesday evening by 6 pins Lessor coming through in the last string with 132 and a win.

The score:

Badger—115, 93, 115, 90, 86, 100, 86, 83, 85, 111—950.

Lessor—107, 91, 57, 77, 31, 93, 91, 86, 83, 132—981.

(Total)—1911.

Jordan—100, 80, 91, 107, 82, 88, 91, 83, 104, 92—928.

Dexter—93, 102, 57, 107, 80, 91, 101, 104, 102, 104—977.

(Total)—1905.

Firemen Bowl

At the West End alleys on Wednesday evening the Sagamore Engine Co. defeated the Kearsarge No. 3 team by 8 pins. The score:

Sagamore No. 1

Scott..... 67 70 83—220

Fullam..... 71 87 90—248

Hoffman..... 60 87 80—227

Regan..... 81 88 86—255

O'Leary..... 52 77 32—261

1218

Kearsarge

Davin..... 101 83 78—262

Fernald..... 60 91 76—227

Haddock..... 81 103 87—271

Miller..... 85 68 86—239

Palmer..... 68 83 76—227

OLD TIME CHAMPION TAKES THE COUNT

Hove, Eng., April 3.—Chavilo Mitchell, one time middle weight champion of the world died here today. He was born in Birmingham in 1861 and although he fought men like Sullivan, Corbett, Kilrain and other heavy weights he was a middle weight, and it was his remarkable foot work and skill as a boxer that enabled him to hold his own. He is the first man that ever knocked down John L. Sullivan.

TO SHIP MEN TO ENGLAND TO TRAIN

Washington, April 3.—A large part of the American army will be sent to England just as soon as the ships to transport it can be assembled.

This was learned from an authoritative source in the army today. These troops, comprising a substantial percentage of those in camps in the United States, will take the place of British troops that have been undergoing training in England.

This plan is entirely apart from the accelerated movement of American troops to the fighting line in France. The best divisions of the American army will go direct to France. Those in the less developed stage will go to England.

According to present plans, more than 1,500,000 men will have been shipped to France by the close of the year. The government regards this as the year of decision, holds that the Germans must be stopped and that victory for democracy must be won—or at least, assured—this year.

The "seven seas" are being combed for the ships to provide space for the troops and supplies. Japan is sending some, others will be obtained from Norway, Denmark and Spain. Finally, Great Britain is going to accept at least an "iron ration" so that the full force of the allies' strength can be mobilized and to provide ships for transports. Several of the biggest English passenger liners, which have been used as auxiliary cruisers, and hospital ships, are being turned over to America.

The American troops sent to England will provide a home army for Great Britain. They will release thousands of Britons to re-enforce Italy's army at the front.

Secretary of War Baker is expected here at an early date. His mission is to put the military and naval forces in co-ordination on the west front.

CATHEDRAL BURNING, SAY GERMANS

Amsterdam, April 3.—The cathedral at Noyon is said, according to a semi-official statement from Berlin. The blaze is attributed by the Germans to the French bombardment.

The cathedral at Noyon is one of the most beautiful French examples of the transition style of architecture of the eleventh and twelfth centuries. A portico was added in the fourteenth and sixteenth centuries. Round and pointed arches are used throughout the building, and the two western towers, which are unfinished, are two hundred feet high. Noyon was "adopted" by Washington, D. C., with the idea of restoring it to its before-the-war prosperity. Noyon was the birthplace of John Calvin, who next to Luther himself was probably the greatest force of the Reformation, his influence being strongly reflected among the Huguenots of France, the Covenanters of Scotland, the Puritans of England, and the Pilgrim Fathers of New England.

VIVIAN REED STARRD IN "THE BULL'S EYE"
Heroine of New Universal Serial Can Ride a Horse With The Most Daring Cowboys.

In casting Vivian Reed as the heroine of the thrilling Western serial, "The Bull's Eye," the production managers of Universal consider that they unearthed a "find." Acting a lead in a motion picture serial is a most exacting task, as many a star of five and six-reel photoplays has learned to her sorrow. Miss Reed, however, has come thru with flying colors. In the first place, she is an actress, not a mere camera poser. In the second, she is pretty, which never imperilled any girl's success in the movies. In the third, she has nerve in abundance and is a regular whirlwind when it comes to riding a horse. And finally, she is a worker. Here, indeed, is your serial queen.

Miss Reed was born in Chicago twenty-four years ago, and was educated there. She went on the stage about five years ago, and after a short career in the spoken drama abandoned it for motion pictures. For the past three years she has been associated with the "Selig Company" appearing with great success as a featured player in "The Temptation of Adam," "The Princess of Patches," "Lost and Found," and other pictures.

NAVY Y. M. C. A. FORMED
Paris, April 3.—The American Army Young Men's Christian Association work among United States naval forces in European waters is being reorganized by the formation of a Navy Y. M. C. A. It will be conducted separately from the Army Y. M. C. A. work and be devoted exclusively to men in the naval service.

Miss Y. M. C. A. secretaries have been assigned to this work under the leadership of H. W. Chaffee, who formerly was connected with the Norfolk, Va. Y. M. C. A. These secretaries will wear a dark blue uniform somewhat similar to that of warrant officers in the Navy, with the red triangle emblem on the sleeve.

One of the features of the Navy Y. M. C. A. plan is the opening of a chain of restaurants in the principal naval bases, where American food will be served at cost. Three of these restaurants already are in operation. Women secretaries will be attached to this service and establish shopping bureaus for the purchase of all kinds of articles desired by the sailors. The entire plan has been approved by the American naval authorities here.

An event believed to be unique in the history of Sunday school work was celebrated by the Judson Bible class of the Baptist Sunday school at Halloway, Penn. George R. Curtis, the class librarian, completed a record of 25 years of perfect attendance, having been neither absent nor late for 1360 Sundays since March 19, 1893. He was presented by his fellow members with a silver loving cup.

THINGS ABOUT TOWN

The Board of Health should take a cruise around the North End and up through Russell street.
 The workmen at the ship plant take some chances at the Vaughan street crossing.
 The hydrant at the corner of Hanover and Vaughan streets hasn't got its growth.
 The surrounding of some of the Vaughan street houses could be improved.
 Smoking in the railroad station at the depot should be stopped.
 Parrot avenue seems to be decorated for the summer as usual.
 That iceberg on Daniel street is slowly melting away, also the one in front of the Jewish Synagogue.
 OBSERVER.

Luce, Ralph W. Jenkins, William J. Cater, H. J. Harold Hobbs, John W. Emery, Harry E. Boynton, Fred A. Gray and Robert I. Sugden.

ROCKINGHAM A. C. BIG BOXING ATTRACTION TOMORROW EVENING

The Rockingham A. C. show Friday evening is the biggest and most classy boxing attraction of the week in New England outside of Boston. The show is the forerunner of a series of bouts in which the best boys of the country will show before the local club. To close followers of the game Billy Carney of New Bedford and Young Battling Nelson of New York need no introduction. These boys are cleaning them all up in their division and are sure to put up a whale of a battle in the final bout of twelve rounds. Three other bouts are on the card and plenty of good clean fast action is in store for the fans. For the following show the management is after Billy Burke and Walter Hartlett for one of the 10's, with Joe Rivers and a local sailor boy, a well known professional boxer in another 10, with another 10 round added. Prices tomorrow evening: Balcony \$1.00 flat, Hingeside \$1.00 with war tax added. The box office will open at 5 o'clock and local patrons should procure tickets early to avoid the rush when the large number of out of town sports show up from 7.30 to 8.

REAL ESTATE TRANSFER

Mrs. Jennie Port of Court street has purchased of Richard J. Walden the house on Charles street occupied by Mrs. Charlotte Connors. Mrs. Port buys for an investment.

WILL HONOR THE OCCASION AT THE NAVY YARD

First Anniversary of the Entry
of the U. S. in the War
Will Be Celebrated on
Saturday.

The first anniversary of the U. S. into the war will be honored at the Portsmouth navy yard on Saturday next. At 11 o'clock all the military bodies at the station and the workmen of the shops headed by two bands will parade. There will be a flag raising and prominent civilian speakers as well as naval officials will be heard on the occasion. The Military and Industrial Departments of the station will join in the celebration as well as the officials and men of the ships afloat. The arrangements are being perfected by Rear Admiral Clifford J. Bouch assisted by officers and men of the respective departments.

THE HERALD HEARS

That real estate deals in this city of late have worried more than one person.
 That the surroundings of the local depot could be made cleaner for the general benefit of the city.
 That backyard gardens will be numerous again this year.
 That Portsmouth hospital has 45 patients.
 That a cigar manufacturer is looking for a location in the business section.
 That the Board of Health should use the dragnet in some quarters.
 That the fire trap at the corner of Washington and Court streets is no credit to the city.
 That plenty of people are sleeping overtime by keeping their watch under their pillow.
 That Eva Tangany, syring for a divorce, says she married in fun and that her husband hooked up for a meat ticket.
 That Eva is tire with the all around joke.
 That the dirt will soon fly on Middle street.
 That the business men of Daniel street may send a card of thanks to the street department for cutting the ice crop.
 That the Concord, N. H. fire department got but one call last month.
 That cross wires started the blowing of the fire alarm Wednesday afternoon.
 That the fuel administrators say they did not order the mourning

which decorates the east side clock of the North church tower.
 That the Portsmouth City Band is said to be much improved with several members.

Are you a slacker? Men physically unfit for the draft are eligible in the merchant marine and many hundred men are needed in this service just now to man our transports. Show your colors and do your bit!
 Have replenished my line of military since Easter, which includes children's hats. Miss E. M. Niles, 32 Congress street. b7,12,25

FREEMAN'S POINT NOTES

Sergeant-Major Smith of the British army, and Sidney Storey of the South, addressed a patriotic meeting at the plant this afternoon. They are working under the direction of the National Service League and are making addresses in different parts of the country. The men were called together by Supt. E. J. White.

IS YOUR BOY'S NAME ON THE HONOR LIST?

Military List Will Shortly Be
Published of Portsmouth
Men Serving Country.

The Herald still urges the people to send in the names of young men from this city serving in the military service for the roll of honor to be published soon.
 Names can be telephoned to the editorial rooms as well as sent by mail and will be added to the list at once. Don't fail to honor the boy wearing the uniform of the army and navy by placing his name with the rest. The list will close shortly and you don't wish to read it without the name of your father, son, husband or sweet-heart. The list is increasing every day.

MORE SPECIAL POLICE APPOINTED

The following additional special police for duty at the Atlantic Corporation have been appointed by the police board and sworn in by the city clerk: Walter C. Clifford, James E. Moore, Charles A. Lloyd.

Music
a war-time necessity

Imagine, if you can, a nation going into war without the thrill of music! Imagine, if you can, a nation battling through the dark days of a prolonged struggle without the heartening comfort of music!

The Victrola is literally the nation's chief source of music. More Americans—and Americans in the making—have learned "The Star Spangled Banner" from the Victrola than from any other one source.

Victrola

The Victrola is in millions of homes. It is in camp, on shipboard, in the trenches, the hospitals, the schools, and the churches. It is one of the greatest—if not the greatest—means of diversion.

Let us put a Victrola in your home

You'll hardly miss the outlay in convenient payments, but you are missing the influence of the world's best music every day you are without a Victrola. Victrolas \$10 to \$400.
